Re: Letter of Recommendation for Eric Aroca

It is a pleasure to write a letter of recommendation for Eric Aroca who came and presented an outstanding assembly to our student body for Red Ribbon week. He had stories that our students related to and was very entertaining. He was very professional and he was well received by our faculty and students. We were very satisfied with the assembly given by Eric.

He used social media to engage the students in the presentation and provide a truly inspiring performance that our students could relate to. His message was both positive and inspirational and provided a very nice springboard into our Red Ribbon week.

Eric is very good at relating to the students on their level and he helped them understand the importance of making good choices. He did a great job addressing our students and I would recommend him if you are looking for an engaging and entertaining speaker.

Sincerely,

Ben L. Ford  
Principal  
Payson High School
