To Whom It May Concern,

Last week we had Eric Aroca speak to our students at Salem Junior High during our Respect Week. And we are so glad that we did. Eric has an awesome story to tell about his experiences of overcoming some serious challenges in school as he was growing up. Eric's presentation was both humorous and thought provoking. He relates well to the students as he shares his formula for success that has helped him to achieve the life he wanted. Our students will not forget how to Dream More, Learn More, and Do More so they can Become More. I can certainly recommend Mr. Aroca to speak at your next school event.

Respectfully,

Robert Fleming, Principal
